

Patricia Geppert, Ph.D.
Executive Business Lead 5G in Telemedicine and Data Analytics Lead
Joint Base San Antonio, 5G Program Management Office
Radiance Technologies

In her position as Executive Business Lead for 5G in Telemedicine Data Analytics Lead, Dr. Geppert oversees all aspects of the three 5G in Telemedicine experiments awarded to the Joint Base San Antonio 5G Program Management office. In addition, as Data Analytics Lead she is responsible for developing the strategy for leveraging 5G and edge computing for ubiquitous Artificial Intelligence, Machine Learning, and Data Analytics. Finally, she leads an OUSD(R&E) Extended Reality Working Group and the JBSA 5G Steering Committee and Working Group in support of these projects.

Prior to her current position, Dr. Geppert was the Associate Director for Research Development at The University of Texas at San Antonio from 2018-2020. In this position, she was responsible for developing and maintaining relationships with external sponsors that have the potential to create additional research awards for researchers at UTSA. She was also responsible for facilitating introductions between faculty and external sponsors.

Dr. Geppert 30 years of experience in education, research and business development. Previous positions included: Laboratory Director for a San Antonio-based biotechnology company, non-tenure track faculty in the Department of Biology at UTSA, Technology Licensing Associate, specializing in valuation of early-stage biotechnology, patent prosecution management, and biotechnology start-ups for UT Health San Antonio, and biomedical sales.
